# APPLICATION TO REGISTER A WELL SYSTEM

**Complete this application for the purposes of registering an existing well system.**

WELL SYSTEM means the collection of non-exempt use wells located on noncontiguous tracts of land, with intervening private ownership or private control, owned or controlled by a person, operated to produce groundwater for non-exempt use purpose, and connected by a transmission or distribution system.

**Note:** In accordance with the District's rules, the District may request additional information not requested in this application in order to consider the application administratively complete.

**Instructions:**

1. Complete the form to the best of your knowledge and belief.
2. Type or print all information.
3. Attach copies of any relevant documentation or information to this application including:
  - a. a scaled map of the well system that accurately describes the geographic extent of the boundary of the well system relative to public roads, the location of property lines within and at the perimeter of the well system, and the location of each water well within the boundary of the well system;
  - b. copies of the Application to Register a Well for each water well within the boundary of the well system;
  - c. documentation describing any expansions of the well system including the date of expansion since the original creation of the well system;
  - d. documentation demonstrating the ownership or control of the tracts of land on which the well system is located; and
  - e. documentation demonstrating authority to act as an agent of the landowner if the application is submitted under the signature other than the landowner's signature.
4. If a portion of the information requested on this form cannot be provided, enter "unknown" in the related blank space.
